If you are having issues viewing data properly within the Hive follow the instructions listed below to clear your cache:

1. Make sure all browsers are closed on your computer
2. Within Google Chrome, go to the three dots in the right-hand corner
3. Select more tools
4. Clear browsing data
5. Advanced and then clear data (see screenshot below for what need to be selected)

After that, close the browser and log back into Cintasmats.com and then go to the Hive.
